DWAYNE RICARDO TUCKER, PhD

Vancouver, Canada | 778-223-6113 | dwaynet@student.uba.ca | LinkedIn | Website | Google Scholar | GitHub

EDUCATION

PhD, Women+ & Children's Health Sciences 2019-2025
University of British Columbia, Vancouver, Canada
Dissertation: "Clinical and biomarker predictors of pain-related outcomes after endometriosis surgery"
Sub-specialization: Machine learning, clinical prediction models, and pathology
Supervisors: Dr. Paul Yong and Dr. Aline Talhouk

MSc., Oncology (with Merit) 2016-2017
University of Nottingham, Nottingham, United Kingdom
Thesis: "Characterization of ITGB3 in response to sublethal chemotoxicity in acute myeloid leukemia"
Concentration: Molecular processes in cancer initiation, progression, and treatment
Supervisor: Dr. Monica Pallis

BSc., Medical Technology 2006-2010
Northern Caribbean University, Manchester, Jamaica
Concentration: Theory and practical aspects of laboratory medicine
Thesis: "Should the clinical lab recommend vanillylmandelic acid as a routine test for hypertensive patients in Jamaica?"

RESEARCH EXPERIENCE

Postdoctoral Research Fellow May 2025-present
University of British Columbia, Canada | Pharmaceutical Sciences | Collaboration for Outcomes Research and Evaluation

- Design and conduct cross-sectional analyses of Canadian Community Health Survey data (>100,000 respondents) to investigate cost-related medication nonadherence, identify key predictors and equity-relevant subgroup differences, and develop machine-learning–based risk prediction models.
- Serve as a co-investigator and methods expert on a Canadian Institute for Health Research (CIHR)-funded project (CAD 240,976) focused on advancing equity, diversity and inclusion (EDI) in arthritis research.
- Co-authored a scoping review identifying critical evidence gaps in the use of biosimilar disease-modifying antirheumatic drugs during pregnancy.
- Leading analyses of temporal pregnancy trends among people living with arthritis in British Columbia using provincial administrative health data.
- Conducting comparative effectiveness analyses of rheumatic medications during pregnancy to quantify risks of adverse maternal and offspring outcomes, supporting evidence-informed clinical decision-making.
- Provide statistical and methodological expertise to new studies, manage cross-institutional collaborations, and prepare grant applications.

PhD Candidate April 2020-April 2025
University of British Columbia, Canada | B.C. Children's and Women's Hospital

- Reviewed and structured complex medical data (operative reports, pathology findings, laboratory results, patient-reported outcomes) to ensure data completeness, consistency, and clinical validity prior to analysis.
- Developed and externally validated the **Endometriosis Pain Index**, a machine learning–based clinical prediction model estimating post-surgical pain outcomes and deployed it as an interactive R Shiny decision-support tool.
- Integrated molecular biomarker data (1,200+ tissue samples) with longitudinal clinical datasets to evaluate predictors of disease severity and progression (including somatic mutations such as PTEN loss and nerve bundle density) .
- Built interactive dashboards to visualize trends, monitor data quality, and streamline reporting for multi-year studies.
- Managed multi-year datasets, implementing reproducible analytic workflows and model validation procedures.
- Contributed to **7 peer-reviewed publications** and presented findings internationally, receiving multiple communication awards.
- Mentored junior researchers, visiting fellows, and undergraduates in clinical data analysis, research methodologies, and histopathology, leading to **3** publications with mentees as first authors, **1** as co-author, and **2** poster presentations.
- Contributed clinical modelling and other methodological expertise to multiple clinical study designs.

Research Assistant May 2023-April 2025
British Columbia Centre for Disease Control, Canada | Infectious Disease

- Drafted study-related documents, including consent forms, study protocol, and recruitment materials, and garnered ethics approval.
- Linked and analyzed a multi-site Canadian cancer screening database, addressing quality issues and standardization needs promptly, and identifying preliminary trends to inform potential research and data collection gaps.
- Analyzed patient-reported outcomes data for clinical predictors of anal dysplasia, to improve cancer screening in Canada.

- Evaluated the use of HPV testing plus cytology-based screening to triage gay/bisexual men living with HIV in Canada for high-resolution anoscopy referrals in resource-limited settings; first author abstract accepted for oral presentation for the 9th International Anal Neoplasia Society Scientific Meeting (June 2025).

Research Assistant July 2023-Jan 2024
University of British Columbia |Gillian Hanley Research Lab
- Comprehensive data abstraction from over 1200 pathology reports for an ongoing project on long-term endometriosis outcomes.

PhD Student Sep 2019-Mar 2020
University of British Columbia, Canada | Vancouver Prostate Centre
- Optimized the detection of a novel circular RNA (circKLK3-2345) encoded by the KLK3 gene in prostate cancer cell lines.
- Conceptualized and wrote a first-author publication on the diagnostic potential of circular RNAs for prostate cancer.

NIH project-funded Research Fellow July-Aug 2019
Fox Chase Cancer Center, U.S.A. | Ragin Lab
- Genotyped DNA samples to assess the prevalence of three potential genetic markers (single nucleotide polymorphisms) for prostate cancer risk in Black men.
- Analyzed urine samples to evaluate tobacco smoke exposure and metabolism in African Americans as part of an ongoing study on cancer risk in Black individuals.
- Generated pilot data that helped to secure over 2,000,000 JMD (20,000 JMD) in additional research funding.

Research Coordinator Feb 2018-Aug 2019
Caribbean Institute for Health Research, Jamaica | Epidemiology Unit
Investigated specific SNPs in predicting cardiometabolic disease in Black-Caribbean men receiving androgen deprivation therapy for prostate cancer.
- Spearheaded recruitment activities, enrolling 90 prostate cancer survivors and conducted all initial and follow-up participant interviews (including anthropometric measurements), achieving a 95% follow-up rate.
- Led the prostate cancer genetics research study, overseeing study design, ethics application, and data management.
- Performed all aspects of biospecimen collection and processing (including phlebotomy, DNA extraction, clinical hematology and chemistry analyses), and contributed to developing the research unit's first biorepository.
- Established standard operating procedures for medical testing, maintaining high standards for sample processing, and data collection and reporting.

Master's Student Jan 2017-Sept 2017
University of Nottingham, U.K. | Hematology Dept.
- Developed highly reproducible in vitro bone marrow experimental models using acute myeloid leukemia cell lines to investigate the impact of dormancy and sub-lethal drug exposure on Integrin Beta-3 protein expression.

WORK EXPERIENCE

Lab administrator July 2020-Dec 2022
Skidmore Goodman Research Wet lab | WHRI | B.C. Children's and Women's Hospital
- Coordinated the procurement and commissioning of ~300,000 CAD worth of scientific equipment and spearheaded all other aspects of a new lab space set-up.
- Spearheaded all facets of laboratory upkeep, including the development of standard operating procedures, meticulous management of procurement and inventory, and training of all new and visiting personnel.
- Helped generate videos and other promotional materials for donor engagement.

Teaching Assistant Marker, BIOL 155 2020-2021
University of British Columbia, Canada
- Graded term papers, assignments, and final exams.

Senior Clinical Laboratory Scientist July 2010-Aug 2019
University of the West Indies, Jamaica | Pathology
- Processed over 5600+ medical samples monthly, ensuring data accuracy, confidentiality, and timely health data reporting.
- Led quality assurance initiatives, improving external proficiency test scores by up to 30% and elevating the overall lab performance metrics.
- Influenced policy changes in medical testing, resulting in annual savings of over 1,000,000 JMD (10,000 CAD).
- Spearheaded the implementation and optimization of new clinical testing protocols, ensuring regulatory compliance and increasing workflow efficiency by 20%.
- Helped to design, implement, and validate the company's first laboratory information system to streamline clinical data operations and management.
- Trained and mentored over 135 junior workers (pathology residents, medical technology students, and medical students).
- Supervised over 35 undergraduate clinical laboratory projects as a clinical rotation facilitator.

- Taught clinical chemistry lab principles to over 700 medical students and delivered biannual lectures to groups of 300 students.
- Served as Chief Technologist, overseeing a team of 20 employees and ensuring exceptional medical result quality and turnaround times.
- Co-authored four (4) book chapters and one (1) peer-reviewed journal article.

Medical Technology Intern Jan 2010-June 2010
University Hospital of the West Indies, Jamaica

- Practical rotation of medical laboratories: Clinical Chemistry, Haematology, Histology, Cytology, Clinical Microbiology, Blood Bank, Immunology/ Serology, and Clinical Microscopy.

AWARDS & HONOURS (~196,948 CAD)

2026 Postdoctoral Research Award (CPRA) program; Canadian Institutes of Health Research (CIHR); 140,000 CAD; ***Ranked 14th of 408 (Top 3.5%) in nationally***
2025 Posit Opportunity Scholar; 2025 Posit conf (R & Python Data Science Conference); ~5100 USD (~7000 CAD); ***1 of 40 awardees worldwide***
2024 Top Abstract & Oral Research Presentation; CanSAGE, Victoria, Canada
2024 Trainee Travel Award; Women's Health Research Cluster; 250 CAD
2024 Best Oral Communication - 10th Society for Endometriosis & Uterine Disorder (SEUD) Congress in Geneva, Switzerland; 500 euros (~740 CAD)
2024 SEUD International Travel Award;10th SEUD; 1000 euros (~1,470 CAD)
2024 Faculty of Medicine Travel Award; UBC; 500 CAD
2024 Graduate Covid Program Tuition Award; UBC; 2163 CAD
2023 Faculty of Medicine Travel Award; UBC; 500 CAD
2022 Shaughnessy Hospital Society Fellowship in Health Care (2022-2023); UBC; 8,350 CAD for one year
2022 Michael Smith Memorial Fellowship (2022-2023); UBC; 4,275 CAD for one year
2022 Graduate Student Travel Award; UBC; 500 CAD
2022 Faculty of Medicine Travel Award; UBC; 500 CAD
2021 Top Three Oral Presentation; CanSAGE Conference, Canada
2021 Graduate Research Award in Women's Health (2021-2022); BC Women's Health Research Institute; 13,500 CAD for one year
2020 The Presidents Academic Excellence Initiative PhD award (2020-2024); UBC; 6,000 CAD
2019 Faculty of Medicine Graduate Awards (2019-2023); UBC; 8,000 CAD
2019 International Tuition Awards (2019-2023); UBC; 19,200 CAD
2019 Outstanding Service Award to Clinical Chemistry between 2010 and 2019; University of the West Indies, Jamaica
2019 Special Alumni Award; York Castle High School, Jamaica
2016 University of Nottingham's Partnership scholarship award (U.K.) (2016-2017); £19,300 (~ 32,500 CAD) for one year
2016 British Chevening Scholarship (2016-2017); Foreign & Commonwealth Office (U.K.); £34,500 (~58,100 CAD) for one year; ***2% success rate globally; 1st Jamaican to be awarded in the biomedical/health sciences***
2016 Developing Solution Scholarship (2016-2017); The University of Nottingham (U.K.); £19,300 (~ 32,500 CAD) for one year; **Declined**
2016 Development Fund Awardee; University of the West Indies, Jamaica; 100,000 JMD (~900 CAD)
2010 Most Outstanding Intern on Rotation; University Hospital of the West Indies, Jamaica
2006-2010 University Honour Roll (2006- 2010); Northern Caribbean University, Jamaica (entire tenure

GRANTS (~251,976 CAD)

- Anti-racism Initiative Grant winner (2021) – UBC Anti-Racism Initiatives Fund (5,000 CAD) + Graduate Postdoctoral Studies (6,000 CAD); ***primary applicant***
- Advancing Equity, Diversity, and Inclusion in Arthritis Research: A Mixed Methods Group Concept Mapping Approach. Canadian Institutes of Health Research (CIHR); Co-applicant; 240, 976 CAD

Podcast: @WomensResearch Episode 21: Checking in with Dr. Nikki Salmond and Dwayne Tucker Sept 2022

Op-ed: Dwayne Tucker: My Journey Through Mentorship Feb 2021

SKILLS

Software & Programming: R (tidyverse, tidymodels, Shiny, Quarto, Caret); Python; SPSS; SAS; Git; SQL; Tableau

Epidemiology & Statistical Methods: Survival analysis; multivariable regression; causal inference; predictive modelling & machine learning; decision curve analysis; survey-weighted analyses; data visualization

Real-World Evidence & Clinical Research: Observational study design; medical data abstraction and validation (laboratory, pathology reports, medical reports); Good Clinical Practice (GCP)

Complementary learning:

Data Analyst in R, *Datacamp*	Feb 2024
Hypothesis Testing in R, *Datacamp*	Feb 2024
Machine Learning with Caret, *Datacamp*	Sept 2022
Supervised Learning in R: Classification, *Datacamp*	Aug 2022
PHDA01- Working with Administrative Data, *Population data BC*	Jan 2022
Population Health: Predictive Analytics, *Leiden University (Coursera)*	Feb 2021
Introduction to Statistics & Data Analysis in Public Health, *Imperial College London (Coursera)*	Jan 2021
Logistic Regression in R for Public Health, *Imperial College London (Coursera)*	Jan 2021

University Courses:

STAT 545A- Exploratory Data Analysis, *University of British Columbia*	Fall 2022
STAT 545B- Exploratory Data Analysis, *University of British Columbia*	Fall 2022

Wet lab: PCR, DNA transfection & cloning, bacterial transformation, RNA extraction,electrophoresis, culture & sensitivity, cell culture, cell viability assays, flow cytometry, Immunohistochemistry, ELISA, FISH, Western Blot, BCA protein assay.

SERVICE

Founder/Coordinator - The Effective Mentorship of Racialized Graduate Students Initiative, Sept 2021-Mar 2023

- Primary applicant for the successful grant application to fund the initiative.
- Created and implemented surveys and conducted focus groups to gather qualitative data.
- Planned and emceed a successful workshop on racism in education.
- Proposed recommendations to enhance mentorship for racialized students, earning commendation from the Dean of Graduate Studies.

Coordinator - Black History Month Event with Graduate Studies, UBC	Feb 2021
Graduate Wellbeing Engagement Trainee - UBC	July 2020-Aug 2021
V.P. Social Media & Marketing - Interdisciplinary Graduate Student Network, UBC	June 2020-Dec2021
Adjudicator - Multidisciplinary Undergraduate Research Conference at UBC (Online canvas)	May 2020
Medical Laboratory Expert - Co-designed COVID-19 medical testing protocols in Jamaica	May 2020
Graduate Student Ambassador - UBC	May 2020-Mar 2021
Laboratory representative - Vancouver Prostate Centre	Jan-Mar 2020
Lead coordinator - Reproductive & Developmental Sciences Student Organization, UBC	Dec 2019-Sept 2022
Volunteer - Clothes and Food Drive with the Shiloh Apostolic Church, Jamaica	Aug 2019
Medical laboratory scientist volunteer - Free health fairs in Kingston, Jamaica	2010-2018

- Administered free urinalyses and blood tests to over 400 patrons at each event.

PROFESSIONAL AFFILIATIONS

African-Caribbean Cancer Consortium Member (AC3)	2019-present
Professions Supplementary to Medicine, Jamaica	2010-present
